DETAILED ACTION

Claim Suggestions

1. It appears that claim 14 should read --at least part of--.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claims 1-4 and 6-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Konsky US 6,047,718.

Konsky discloses a solenoid fuel drain valve having a valve body having a drain hole 34 and an air inlet opening 32 (patent states that fluid may be any fluid or gas), a solenoid coil 14 and a piston 16, with the drain hole having a drain inlet and outlet with the movement of the piston provided by the solenoid. The valve body defines an interior chamber. The valve body has an air passage which would inherently have an air source. The valve body has a drain passage. The piston has a rod and head or two heads which is attached 22 or is separate 20 and is moved by the rod, the head seals both of the drain hole and air inlet opening with the rod having a flange (Fig. 1) and at least part of the rod extends through the drain hole. An armature 16 is attached to the piston wherein energization and deenergization of the solenoid moves the armature and piston and a solenoid stem 16 is made of magnetizable material and a magnetic field is induced. A spring 21 and 23 biases the piston and has a retaining surface.

Claim Rejections - 35 USC § 103

Page 3

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all

obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person

having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

5. Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Konsky US

6,047,718.

Konsky lacks two or more air inlet openings. It would have been obvious to one having ordinary

skill in the art at the time the invention was made to duplicate the inlet opening to make two of

them, since it has been held that mere duplication of the essential working parts of a device only

routine skill in the art. St. Regis Paper Co. v. Bemis Co., 193 USPQ 8 (CA 7 1977).

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's

disclosure. Shost, Vaz, Schulz, Bright, Molnar, and Hanson disclose solenoid valves. Patterson

discloses multiple seating.

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to John Bastianelli whose telephone number is (571) 272-4921. The

examiner can normally be reached on M-F (9:00-6:30).

Art Unit: 3751

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Justine Yu can be reached on (571) 272-4835. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
